

Your Access to Future Transport

Ryerson University Student Chapter

## CIVIL ENGINEERING RESEARCH FROM A GOVERNMENT PERSPECTIVE

Guest Presentation by Ataur Bacchus –  
Intelligent Transportation Systems Program,  
Ministry of Transportation (Government of Ontario)

Date: Monday, November 12, 2007

Time: 3:15 – 5:30 PM

Location: MON 316, Ryerson University

ATAUR BACCHUS spent a year at Ryerson University (then Ryerson Polytechnical Institute) during which he won the Rattray Award for Engineering and the H.H. Kerr award for best English essay. Since then he has picked up 2 degrees in Civil Engineering and 1 in Industrial Engineering from the University of Toronto and an MBA from the Schulich School of Business, York University.

Working at MTO since 1973, he coordinated the development of the Canadian Strategic Highway Research Program for Canada (CSHRP) and worked as a visiting Researcher in the US SHRP. He was one of two authors on the first draft of the document "Scientific Approaches to Transportation Research".
